

## **Course programs**

Do you want to support your customers actively in their development?

Do you want to increase the customers' loyalty?

Would you and your customers like to get more knowledge about the Vision Systems?

Plan a further education and training event with us.

Get some education with us at a place, where others go on vacation. We invite you cordially to Schellenberg, a region with a marvelous panoramic view and where Visions come true.

**Place:** Wohlwend AG Dental Manufaktur  
Platta 52  
FL-9488 Schellenberg  
Principality of Liechtenstein

**Training lab:** modern, efficiently equipped with eight technician places

**Instructor:** Nikola Cemerikic ZT/CDT

**Contents:** customized programs of education for beginners and professionals in a pleasant atmosphere  
We impart detailed product information to you and give technical support in all aspects of pfm and full ceramic work  
Instructor supported, independent work  
Concepts for efficient and economic workflows  
Exchange of experiences as well as assistance and analyses

**Day's schedule:** this will be issued and sent according to your requests, because the course program is individually customized

**Course dates:** there are no fixed course dates, but we will arrange the most favorable schedule together with you

Mixing plate, brushes, sponge, glass spatula and so on  
Modeling instruments (waxing-up instruments), Waxes  
One model with anterior-and posterior metal coping (max. 3 units per bridge)  
One coping for press over zircon

## **Wohlwend AG**

**Visions**

**come**

**true**

One more thing at the end:

Individuality is very important to us. It is also possible to combine courses, or to arrange them individually.

If you want a combined package with Basic and Advanced courses the duration will be 4 days for each system.

Other combinations are also possible on request.

We are looking forward to further working and educational relationships.

For any other questions please feel free to contact us or our technical instructor:

Nikola Cemerikic  
Zahntechniker/CDT  
Dental Technologies Instructor
